CASE STUDY

ISO 9001:2015, ISO 14001:2015, & OHSAS 18001-Enterprise-Wide Internal Audit

CLIENT: LEADING PROVIDER OF LONG-TERM FLEET CHARTERS & COMPLEX SUBSEA OPERATIONS

Internal audit findings were resolved and their management systems were returned to compliance with all applicable standards

WHAT YOU WILL READ

The challenge · The outcomes · How we did it · Competencies applied

THE CHALLENGE

- A leading supplier of subsea services in all the major oil and gas production regions around the world had neglected to accomplish their required internal audits of their quality, environmental, and health & safety management programs to the applicable standards
- Rapid growth through acquisition without merging the competing management systems
- Centralized system documentation was not applicable to subsidiary locations

THE OUTCOMES

- Internal audit findings were resolved and their management systems were returned to compliance with all applicable standards
- Registrar's Certification revealed only very minor findings
- The organization obtained ISO 9001, 14001, & 18001 certification
